also known as the consumer justification narrative (Part II of the Rate Filing Justification). We note that the threshold set by CMS constitutes a minimum standard, and most states currently employ stricter rate review standards and may continue to do so. Issuers offering a QHP or any single risk pool submission containing a rate increase of any size must continue to submit an actuarial memorandum (Part III of the Rate Filing Justification). The actuarial memorandum is required whenever a state with an Effective Rate Review Program, as determined in accordance with 45 CFR 154.301, requires it to be submitted, and for all plans in states that do not have an Effective Rate Review Program. *Form Number:* CMS–10379 (OMB control number: 0938–1141); *Frequency:* Annually; *Affected Public:* Private Sector; Businesses or other for-profits, Not-for-profit institutions, State, Local, or Tribal Governments; *Number of Respondents:* 620; *Number of Responses:* 2,551; *Total Annual Hours:* 46,102. (For policy questions regarding this collection, contact Keith McNamara at 410–786–7010.)

William N. Parham, III,

Director, Division of Information Collections and Regulatory Impacts, Office of Strategic Operations and Regulatory Affairs.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Findings of Research Misconduct

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: Findings of research misconduct have been made against Shaker Mousa, Ph.D., M.B.A., FACC, FACB (Respondent), who was a Professor, Chairman, and Executive Vice President of the Pharmaceutical Research Institute, Albany College of Pharmacy and Health Sciences (ACPHS). Respondent engaged in research misconduct in research supported by U.S. Public Health Service (PHS) funds, specifically National Cancer Institute (NCI), National Institutes of Health (NIH), grant R21 CA135245 and National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK), NIH, grant R01 DK052798. The administrative actions, including supervision for a period of four (4) years, were implemented beginning on May 15, 2024, and are detailed below.

FOR FURTHER INFORMATION CONTACT: Sheila Garrity, JD, MPH, MBA, Director, Office of Research Integrity, 1101 Wootton Parkway, Suite 240, Rockville, MD 20852, (240) 453–8200.

SUPPLEMENTARY INFORMATION: Notice is hereby given that the Office of Research Integrity (ORI) has taken final action in the following case:

Shaker Mousa, Ph.D., M.B.A., FACC, FACB, Albany College of Pharmacy and Health Sciences (ACPHS): Based on the report of an investigation conducted by ACPHS and additional analysis conducted by ORI in its oversight review, ORI found that Dr. Shaker Mousa (Respondent), former Professor, Chairman, and Executive Vice President of the Pharmaceutical Research Institute, ACPHS, engaged in research misconduct in research supported by PHS funds, specifically NCI, NIH, grant R21 CA135245 and NIDDK, NIH, grant R01 DK052798. ORI found that Respondent engaged in research misconduct by intentionally, knowingly, or recklessly falsifying and/or fabricating chick chorioallantoic membrane (CAM) assays used to determine angiogenesis activities of small molecules in:

- Tetraiodothyroacetic acid-conjugated PLGA nanoparticles: a nanomedicine approach to treat drug-resistant breast cancer. *Nanomedicine (Lond)* 2013 Dec;8(12):1943–54. doi: 10.2217/nnm.12.200 (hereafter referred to as ''*Nanomedicine (Lond)* 2013'').
- The proangiogenic action of thyroid hormone analogue GC–1 is initiated at an integrin. *J. Cardiovasc. Pharmacol.* 2005 Sep;46(3):356–60. doi: 10.1097/01.fjc.0000175438.94906.a0 (hereafter referred to as ''*J. Cardiovasc. Pharmacol.* 2005''). Retraction in: *J. Cardiovasc. Pharmacol.* 2023 Sep 8. doi: 10.1097/FJC.0000000000001471.

Specifically, ORI found that Respondent intentionally, knowingly, or recklessly falsified and/or fabricated:

- seven (7) micrograph panels in *Nanomedicine (Lond)* 2013 and *J. Cardiovasc. Pharmacol.* 2005 by reusing CAM images from the same source and falsely relabeling them to report pro-angiogenic factors as alternate pro-angiogenic factors, anti-angiogenic drug treatments as alternate anti-angiogenic drug treatments, and control treatments and anti-angiogenic treatments as the same treatment in:

—FGF2 images in Figure 3A of *Nanomedicine (Lond)* 2013 and in Figure 2A of *J. Cardiovasc. Pharmacol.* 2005 and GC–1 image in Figure 4A of *J. Cardiovasc. Pharmacol.* 2005

—FGF2 + T–PLGA–NPs image in Figure 3A in *Nanomedicine (Lond)* 2013 and GC–1 + XT199 image in Figure 4A of *J. Cardiovasc. Pharmacol.* 2005

—FGF2 + tetrac in Figure 3A of *Nanomedicine (Lond)* 2013 and PBS Control image in Figure 4A of *J. Cardiovasc. Pharmacol.* 2005

Respondent entered into a Voluntary Settlement Agreement (Agreement) and voluntarily agreed to the following:

(1) Respondent will have his research supervised for a period of four (4) years beginning on May 15, 2024 (the ''Supervision Period''). Prior to the submission of an application for PHS support for a research project on which Respondent's participation is proposed and prior to Respondent's participation in any capacity in PHS-supported research, Respondent will submit a plan for supervision of Respondent's duties to ORI for approval. The supervision plan must be designed to ensure the integrity of Respondent's research. Respondent will not participate in any PHS-supported research until such a supervision plan is approved by ORI. Respondent will comply with the agreed-upon supervision plan.

(2) The requirements for Respondent's supervision plan are as follows:

i. A committee of 2–3 senior faculty members at the institution who are familiar with Respondent's field of research, but not including Respondent's supervisor or collaborators, will provide oversight and guidance for a period of four (4) years from the effective date of the Agreement. The committee will review primary data from Respondent's laboratory on a quarterly basis and submit a report to ORI at six (6) month intervals setting forth the committee meeting dates and Respondent's compliance with appropriate research standards and confirming the integrity of Respondent's research.

ii. The committee will conduct an advance review of each application for PHS funds, or report, manuscript, or abstract involving PHS-supported research in which Respondent is involved. The review will include a discussion with Respondent of the primary data represented in those documents and will include a certification to ORI that the data presented in the proposed application, report, manuscript, or abstract are supported by the research record.

(3) During the Supervision Period, Respondent will ensure that any institution employing him submits, in conjunction with each application for

PHS funds, or report, manuscript, or abstract involving PHS-supported research in which Respondent is involved, a certification to ORI that the data provided by Respondent are based on actual experiments or are otherwise legitimately derived and that the data, procedures, and methodology are accurately reported in the application, report, manuscript, or abstract.

(4) If no supervision plan is provided to ORI, Respondent will provide certification to ORI at the conclusion of the Supervision Period that his participation was not proposed on a research project for which an application for PHS support was submitted and that he has not participated in any capacity in PHS-supported research.

(5) During the Supervision Period, Respondent will exclude himself voluntarily from serving in any advisory or consultant capacity to PHS including, but not limited to, service on any PHS advisory committee, board, and/or peer review committee.

(6) Respondent will request that the following paper be corrected or retracted:

- *Nanomedicine (Lond)* 2013 Dec;8(12):1943–54. doi: 10.2217/nnm.12.200

Respondent will copy ORI and the Research Integrity Officer at ACPHS on the correspondence with the journal.

Dated: May 29, 2024.

Sheila Garrity,

Director, Office of Research Integrity, Office of the Assistant Secretary for Health.

National Institutes of Health

Office of the Director; Notice of Closed Meeting

Pursuant to section 1009 of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: Office of Research Infrastructure Programs Special Emphasis Panel; (ZOD1), STOD Member Conflict.

Date: June 25, 2024.

Time: 1:00 p.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, Center for Scientific Review, 6701 Rockledge Drive, Bethesda, MD 20892 (Virtual Meeting).

Contact Person: Jonathan Ivins, Scientific Review Officer, Center for Scientific Review, National Institutes of Health, Rockledge II, 6701 Rockledge Drive, MSC 7806, Bethesda, MD 20892, (301) 594–1245, *ivinsj@csr.nih.gov*.
